Site Specific Instructions and Comments

VCR is On and set to Channel 3, Set to VCR Mode by pressing TV/VCR button on front of VCR.
 TV is On and set to Video 1 by pressing the "AVX" button on the TV Remote.

Note: If there is no Satellite audio heard thru the AT2001 with the Sat Audio Button On, press the "Input" button on the Universal Remote. This seems to tell the VCR to send signal thru the RCA connections.
