Release Summary for AFMSS 2

Version 1.2.3.1 released on 1/17/17

Table of Contents for Release 1.2.3.1 Enhancement Tickets

Table of Contents of Bug Fixes with Release 1.2.3

(Operator) AFMSS-314 Onsite Complete Letter/Email (Electronic/Paper NOS and APD)

This will update the onsite review completion email and provide an attachment of the Onsite Report to the Onsite Review Completion Email. Example shown below.

The Bureau of Land Management

APD Onsite Review Results

- Operator Name: *QEP ENERGY CO*
- Well Name: *MHA*
- Well Number: *7-29-30H-150-92*
- APD #: *10400009658*
- Onsite date: *01/09/2017*

Please see the attached results from your onsite review

You may contact the field office if you have any questions.

This notification is automatically generated. Please do not reply to this message as this account is not monitored.

# (BLM) AFMSS-769 Correct Field Label Geologic Review (Paper APD)

This update will correct the paper APD geologic review for question, "Does the SUPO contain complete information on the location and types of water supply?" The description box for the deficiency when choosing the answer, "No" will now display "Water" instead of "Waste."

# (BLM and Operator) AFMSS-793 Remove the "Cancel" button and change wording to "Delete APD" (Electronic/Paper APD)

This update will change the label from "Cancel" to "Delete APD" and upon selecting this button a warning message will appear, "Are you sure you want to delete this APD?" Upon confirming the delete function, the APD will no longer be in the operator's worklist and is moved to My Completed APD Processes.

(Operator) AFMSS-796 No Longer Allowing the Upload of File Names with Special Characters (Electronic NOS and APD)

This update will no longer allow a file containing "invalid" characters to upload. A warning message will appear informing the user that some characters are not allowable. The acceptance of the warning message will automatically update the file name for the user and filter out the "invalid" characters by replacing them with an underscore. The following characters are allowed in file names for AFMSS 2: letters, numbers, underscores, or dashes. **Note, spaces are not allowed and therefore they will be replaced with an underscore.

ling operations plan required?   ◯ Yes ◉ No

used? *   ◯ Yes ◉ No

## (BLM) AFMSS-818 New Geological Approval COA Task Functionality (Electronic and Paper APD)

This update will allow the geologist to add geology remarks (optional) and upload multiple attachments for geological reviews as well as multiple attachments for "Identified COAs." The review documents are available under the My Monitor Geological Reports. The COAs will be uphended to the Form 3160-3 with the other COAs.

(BLM) AFMSS-857 Allows an upload of Attendees for the Conduct Onsite Task (Electronic/Paper NOS and APD)

This update will allow an upload for attendees for an APD or an NOS Conduct Onsite task. The system will allow the following file types: .PDF, .EPS, .GIF, .HTM, .HTML, .JPG, .XLS, .XLSX, .PPT, .PPTX, .SNP, .DOC, .DOCX, .PCS, .PS, .RTF, .TXT, .TIF, and .BMP.

Bug Fixes

(Operator) INC000000255641 - Alaska Lease fix

Allow Alaskan Federal Lease number to bypass LR2000 validation since they are stored in Alaska Land Information System (ALIS) and not in LR2000.

(Operator/BLM) INC000000255697 - Number of Legs field fix

In the Print APD report, the value in the number of legs was disappearing. This ticket fixes this problem.

(Operator/BLM) INC000000261836- BIA Bond Number expansion to 30 characters

Expanded the size of the field to 30 characters.

(Operators) INC000000262342 - NOS hyperlinks not selectable (Bizcove issue)

This ticket restores the ability for an operator to access their NOSs from My Archive.

(BLM) INC000000262559 - Geology COA content cut off in COA Report

This bug fix is to prevent information from being truncated on the Geology COA report.

(BLM) INC000000260293 - Internal Worksheet attaching to 3160 (needs removal)

The engineering worksheet was for internal use only and was being attached to the 3160 form. This ticket fixes this issue to ensure that only the COA documents are attached, nothing else.
