USFS Ecosystem Management Coordination http://www.fs.fed.us/emc/pa/pa_epubplus.htm
The **ePubPlus** pilot uses [Limehouse Software](#) services in the development and production of the environmental impact statement and analysis of public comments for the new [Giant Sequoia National Monument Management Plan](#), slated for implementation in 2010. The service is hosted on a non-Forest Service server, enables numerous document writers and editors in different locations to work collaboratively online and reduces the time needed for review and revision. The content can be compiled, formatted, and published in a variety of ways and can be easily updated and re-used.
