

## Map Tech- Terrain Navigator Pro

### Uploading Waypoints or Tracks from a GPS to MapTech (Page 1 of 2)

Step 1: Connect your GPS Unit to your computer

Step 2: Run the GPS Set Up Wizard

Step 3: Under the **GPS** menu in your main tool bar highlight **Receive from GPS** and choose to receive either **Waypoints...** or **Track Logs...**

Step 4: Choose the **Waypoints** or **Track logs** that you would like to receive from the GPS. You can select multiple Tracks or Waypoints using the shift and the control keys.

Step 5: When you have selected the desired **Waypoints** or **Track Logs** select **OK**.
