

Setting Projection Info

Note: For the purposes of this guide it is assumed that you have DNR Garmin installed and communicating successfully with your GPS unit.

1. Run DNR Garmin.
2. Click **File**, then **Set Projection...**

3. On the Projection Tab, check the **ESRI** button and choose **NAD_1983_UTM_Zone_12N** or appropriate projection for your area...

4. Click **OK** to finish.
