PROD-1859 (Operator).....	3

PROD-2010 (BLM/Operator) Paper/Electronic APD/NOS: on the Preliminary Screen to address ghost attachments, the options to clone any APD/NOS created prior to July 22, 2019 were removed from the dropdown list. Only APD/NOS options created after July 22, 2019 will be available.

PROD-2011 (BLM/Operator) Paper/Electronic APD/NOS: on Application Section 2 Master SUPO Plan options for existing plans created prior to July 22, 2019 in the dropdown list were removed. This update should prevent ghost attachment issues related to cloning. Only Master SUPO plans created after July 22, 2019 will be available. Master SUPO Plans created prior to July 22, 2019 will need to be reentered.

PROD-2014 (Operator) Electronic APD: remove conditional question input when the radio button selection is changed. The action will remove the previously stored entries. This update will address ghost attachment issues related to cloning as well as current selections when the selection is changed. The screen will save and remove the previous information. Be aware, if the No selection is selected, the previous data and attachments will be removed and have to be reentered if needed.

See the screenshots in progression below:

PROD-2015 (Operator) Electronic APD: SUPO Section 2 and SUPO Section 10 Removed link between the two pages causing residual data to prevent moving forward with processing.

PROD-1859 (Operator) Electronic APD: Drilling Plan Casing Section 3 updated to require only one casing assumptions worksheet and no longer requires the worksheet to be uploaded in each casing section (or container box). The casing order as input by the operator will be retained for the operator view. The report will be addressed in a future ticket.
